

## SolveWare AS

### Contact for Job Applications and Open Roles:

**[info@solveware.no](mailto:info@solveware.no)**

Dear Prospective Candidates,

At SolveWare AS, we take great pride in our reputation as a leader in delivering innovative and comprehensive solutions to our esteemed international clients. As we continue to expand and strengthen our presence in the market, we are excited to announce that we are actively seeking talented individuals to join our dynamic team.

We are particularly interested in individuals who possess a unique blend of software, hardware, sales, and business skills. Our goal is to cultivate a diverse workforce that encompasses a holistic understanding of our business model, enabling us to effectively collaborate with clients and partners and deliver exceptional final solutions.

#### **Role and Responsibilities:**

As a member of our team, you will play a crucial role in driving the success of our projects. Your responsibilities will include:

#### **Software Expertise:**

Developing and maintaining robust software solutions that align with our clients' requirements.

Conducting thorough testing and debugging to ensure the reliability and efficiency of our applications.

Collaborating with our partners and clients to integrate software components seamlessly.

#### **Hardware Proficiency:**

Installing, modifying, designing, implementing, and optimizing hardware solutions to complement our software offerings.

Conducting hardware testing and troubleshooting to ensure optimal performance.

Providing technical support and guidance to clients and partners regarding hardware-related issues.

---

**Sales and Business:**

Engaging with clients and partners to understand their needs and identify opportunities for collaboration.

Developing and executing effective sales strategies to expand our client base.

Participating in business development activities to foster partnerships and drive growth.

**Requirements:**

Bachelor's degree in Computer Science, Engineering, or a related field. The lack of this requirement can be compensated by extensive experience in the mentioned fields of work.

Proven experience in software development, hardware design, sales, or business development.

Strong technical proficiency in programming languages, software development methodologies, and hardware technologies.

Exceptional interpersonal and communication skills in English to effectively collaborate with team members, clients, and partners.

Demonstrated ability to adapt to evolving technologies and industry trends.

A passion for innovation and a proactive mindset towards problem-solving.

**Join Our Team:**

If you are eager to be part of a vibrant and forward-thinking organization, we encourage you to submit to us your CV, with a short presentation message. By joining our team, you will have the opportunity to work alongside talented professionals, engage with cutting-edge technologies, and contribute to transformative solutions for our clients.

To apply, please submit your resume and a cover letter highlighting your relevant experience and qualifications to [info@solveware.no](mailto:info@solveware.no) or directly to our General Manager Magne Arne Brekke at [magne.brekke@solveware.no](mailto:magne.brekke@solveware.no) . We kindly request that you use the subject line "Job Application - [Position Title]" in your email.

Thank you for considering SolveWare AS as your potential employer. We appreciate your interest in joining our team and look forward to reviewing your application.
